SWAIM'S

☞Celebrated Panacea

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver, and Skin and all Diseases arising from Impurities of the Blood, and the Effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures—for the gentlemen of which reference is made to the directions and books, (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune of being recommended by the most celebrated physicians and other eminent persons. Among others by

W. Gibson, M. D., Prof of Surgery, Pa. Univ.
Valentine Mott, M. D., Prof of Surgery, New York University.
W. P. Dewees, M.D., Prof of Mid., Pa. Univ
N. Chapman, M.D., Prof of Theor, Pa. Univ.
T. Parke, M.D., Pres't College Physicians, Phila.
Dr. Del Valle, Professor of Medicine, Havana.
Jose Benyenco de Las Prof of Surgery, Lisbon.
J. Chapman, Member Royal College Surgeons, London
G. W. Erving, late Minister to Spain.
Sir Thomas Pearson, Med Dep British Army.
Gilbert Robertson, British Consul, &c., &c.

Besides a large number of Ministers of the Gospel, Members of Congress, Philanthropists, &c.

And also, the wonderful cures effected, by Swaim's Panacea, have for many years made it an invaluable remedy! The Panacea does not contain mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1,50 per bottle, (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Genuine Panacea is in round bottles, dated longitudinally, with the following letters blown on the glass:

"SWAIM'S—PANACEA—PHILADA."

and having the name of SWAIM stamped on the sealing wax, and written on the label covering the cork, and delivered to her for the use of the bottle, composed of pasteboard labelled work, comprising nine different dies, which have been formed for the exclusive use of the proprietor, by Draper & Co.'s bank note engravers, of Phila. Four lines of different patterns from the body of the work, and in the centre of a portrait of the late Wm. Swaim, separated from the border by two circles of labels work. The words "Swaim's Panacea" are engraved conspicuously on two former scrips, and a label, containing the signature of the proprietor, across the upper margin. The whole is a complete set of plain label work stripe, outside of which do not touch the label letters, the entry of the copyright, also,

Swaim's Vermifuge,

A valuable Family medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Nausea, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY, THE OLD STAND, Seventh Street, below Chestnut, Philadelphia. The Trade will find all the respectable druggists in the United States.

CAUTION TO THE PUBLIC.

Persons wishing to obtain the genuine SWAIM'S PANACEA, would do well to observe that the wrapper should be signed by the proprietor, and

SWAIM

impressed upon the cork of each bottle and label; or they may be deceived and by mistaken shall in imitation of them by a person bearing a considerable similar name, well calculated to deceive.

He begs leave to refer those unacquainted with him to the following testimonials:—

From the Hon. Charles Mason, Commissioner of Patents,

(U. S. Patent Office, Feb. 23, 1858.

I take great pleasure in stating that during the time I have been acting as Commissioner of Patents, Samuel Cooper, Esq., of Boston, has been engaged in business, and has been in that capacity in constant correspondence and intercourse with the Office. He has evinced in thorough acquaintance with the Patent Law, and with the rules and practice of the Office, a thorough devotion to the interests of his clients, and a marked candor and courtesy that has rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with the Office with whom I am acquainted.

CHARLES MASON, Commissioner.

From the Examiners of the Patent Office.

The undersigned, Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, late a principal Examiner in this office, and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned Technical skill in the business and practice of this office, and that his scientific attainments qualify him eminently to him for the business in which he is about to engage.

A "Crack" Hotel.

One of the suburban villages of Bangor has a model hotel. To the weary and way-worn traveller, it is an oasis in the desert, a very caravansera, where singing birds, gay parterres, blooming flowers, and aromatic perfumes regale and delight the senses.

Although the city and its environs have houses for the stranger, unrivaled elsewhere, yet this hotel, like the "many daughters who have done virtuously, excelleth them all."—The edifice itself is of uncertain antiquity. Long before the footprint of the white man was seen on these shores, the ancient Tarentines made it "a lodge in a vast wilderness," almost—"a boundless contiguity of shade," and it was even then "a ruin." The memory of man reacheth not to the time when it was not. Its age is only to the record of ages. Like the Tower of Babel, which, amid the legend was originally twenty or more stories high, seven of which have sunk and seven tumbled down, leaving only seven remaining; so one third of this hotel has sunk into the earth, and one third of the upper works are gone, leaving only one third of the original structure remaining.

"To point a moral, or adorn a tale."

After the manner of the royal and noble residences of Europe during the middle ages, every thing appertaining to the establishment is enclosed by the same walls and under the same roof. The house, stable, cattle-shed, wood-shed and retiring room, are all in delightful proximity to each other. The "office" where strangers "most do congregate" is a sort of drawing-room for the stable; opening through one door to the place where horses eat and sleep, through another to the room where men eat and drink, and through a third to where men only drink. On days when Sol asserts his sway, and dissolves the icy robes of earth, the delightful perfumes that mingle in the "office" from the stalls, cattle shed, bad rum, bla k pipes, and the dinner table, are sufficient to cause one "to dip in aromatic pain."

There is but one possible thing left undone by the landlord for the comfort of his guests who sojourn in the room, and that is, they are not cleaned and curried down, as all should be who sleep in the stable, or any of its apartments. If guests are stabled, the hostler ought to see that they are well rubbed down and oated the last thing at night and the first in the morning.

This celebrated hotel has for long years been noted for being the place where the "big bugs" meet;—the "bugs" who are known to fame in all the country around. Here they hold their nightly consensus, discuss with epicurean zest the various articles of food provided for them by the attentive landlord, and retire when daylight appears, to doze away the day, and prepare themselves for another nocturnal debauch.

Food, which courses through the veins of those "but little lower than angels," and even "angelic forms" themselves, clothed in the drapery which adorns "the fair," constitute the bill of fare which nightly is set before these "big bugs." It would be fortunate for strangers who are benighted at this hotel, and compelled to remain, if the whole race of aristocrats could be furnished with places by the powers at Washington. They are all good democrats, and would make excellent treasury *sarbers*.

Time and space would fail to describe all the excellencies and glories of this famous hotel. One word only upon the manner it was been conducted:—(of course the present landlord lives in no such magnificent style.) Some ladies having ordered some trout had it brought them in an old hat, that being the latest style of fruit dish. Eastern magnificence never equaled this, and "first class hotels" may all or this hide their "diminished heads."

In conclusion, may my first visit to this famous hotel be my last, and it compelled again to stop in the lovely village which this hotel *adorns*, may some kind friend or stranger "take me in."

JOHN QUINCY ADAMS UPON THE AMISTAD CLAIM.—On the 22d of March, 1847, John Q Adams made a speech in the House of Representatives, in relation to the Amistad claim, in which he said that the Spanish Minister had never demanded the negroes as slaves, but as freemen, as they had been declared to be by the Supreme Court, and that they should be delivered up as assassins; that if they had been delivered up, they would have been executed at Havana, in which case all claim of Role and Montez to them must have been forfeited; that there was not even the shadow of a pretence for the Spanish demand of indemnity; that such a total perversion of the whole subject, as made by the Spanish Minister and the Secretary of State, had never been witnessed; that the demand if successful, would be a perfect robbery committed on the people of the United States; that neither the slave-dealers nor the Spanish government on their behalf, had any claims to the money asked for whatever; and he prayed God to forbid that any claims should ever be allowed by Congress which rested on such a false foundation". And yet the President recommends the payment of this claim, and it is so reported by the democratic majority in the House.

THE NEW POLAR SEA.—*An Argument from Physiology.* On last evening at 8 o'clock, Dr. Kane, the fellow voyager of the late Dr. Dana delivered a lecture in New York before the American Geographical and Statistical Society, explaining the basis of Maury's discovery of an open polar sea. He read several letters in favor of a further prosecution of the search, and among them the following:

CAMBRIDGE, Dec. 6, 1858.

My Dear Lieutenant: * * * I beg to add a word with regard to Dr. Hayes's expedition. I consider it as highly important, not only in a scientific point of view, but particularly so for the interests of the whale fisheries. The organization of these huge inhabitants of the ocean seems to me to furnish the most direct proof that there is an open sea in the Arctic. The whales being warm-blooded, air-breathing animals, must come to the surface to respire. They cannot live without it. Now it is well known that during the winter they are not found outside—that is, to the south of them—both in the Arctic seas. They retreat Northward during the cold season, and if the whole expanse of that Arctic sea was covered with ice, they would necessarily perish during the long winter. Do not know a more direct evidence of the presence of extensive open waters in the northernmost regions of the globe, than the mode of life of the whales; and the discovery of a passage into that open water, would render whale fishing possible during the winter, would be one of the most important results for the improvement of whale fishing. The argument may not strike forcibly every one who is not acquainted with the structure of the whale, but to a naturalist it must be irresistable.

Very truly, your friend, I. AGASSIZ.

Dr. JOHN L. LECONTE, Philadelphia.

A young man thought he would have a nice time at Toronto, the other evening, and donned his wife's clothing, crinoline, etc, and proceeded to promenade about town. A policeman failed to see the point of the joke, and locked him up in the station-house for a few hours, and then let him go home in rather scant habiliments.

Miles Standish's pipe and pistol were sold at auction in Albany on Wednesday. The pipe was the veritable one which came over with him in the Mayflower, and was smoked by him until his death, and was made of iron. It brought $16. The pistol brought a like sum.

STEAM FIRE ENGINES. The city of Boston has purchased two Steam Fire Engines, at a cost of $3500 each. The machines are shortly to be introduced into the Fire Department of that city, and the builders are under a contract to run them for a period of one year from the date of the purchase.

One of Mr. Buchanan's arguments for the acquisition of Cuba was, that it would destroy the last relic of the slave trade. Considering that a cargo of slaves has just been landed in Georgia, and that a grand jury in South Carolina has found a bill preferred against men taken in the act of the slave trade, we think that the probabilities of suppressing the slave trade in Cuba would be little improved by transferring the island from the jurisdiction of Spain to that of the United States.

WASTE OF TIME AT WASHINGTON.—Congress has voted to adjourn from the 23d of December to the 6th of January. We are glad to perceive that 22 Senators and 94 Representatives voted against continuing the scandalous custom of wasting time at the Christmas holidays (the adjournment this year is even longer than usual)—and came near defeating the order.

A married woman brought before a Virginia justice charged with the larceny of some pewter plates. After hearing the evidence, and deciding that the woman was guilty, he ordered that ten lashes should be inflicted upon her husband, who was then and there present, giving as a reason that the Scriptures declared that man and wife were one flesh, and as the wife was the weaker vessel, it was right that the man should bear the penalty.

The New York police report that on Thursday evening a negro from New London, Conn., while in a groggery at Five Points, swallowed for a wager of $15, five lbs of tallow candles, five of raw pork, a pint of lamp oil, and a quart of whisky. He was shortly afterwards found insensible in the street and sent to the station house. The negro recovered after a while, with the help of a physician, but laid his illness to the Five Point whisky.

AN UNEXPECTED CONFESSION. The Boston Courier, a journal representing the Buchanan Whigs of Boston, is so deeply tired of its Administration connection. In its issue of the 15th, it declares its readiness to "rough it" with the Republicans should they nominate Hamilton Fish, instead of Seward, for the Presidency. As Mr. Seward is not more of a Republican than Mr. Fish, we do not see why the Courier should not hoist the Republican banner at once.—*New York Post.*

Bark Laura Snow, (of Thomaston,) Crockett, from Buenos Ayres for Europe, lost both anchors and cables and went ashore, no date or other particulars. She was import at Buenos Ayres 24 ult, and would have to discharge her cargo for repairs.

Ship Ulrica Dorothea, (of Bath) from Stockholm for New York, (or first port in the nation, put into Falmouth, entrance of the Kattegatt, 27th ult. leaky; must discharge before repairing.

Mr F. W Osborne arrived at Boston in the steamship Atlantic on Saturday, with papers and full powers from the Nova Scotia Telegraph Company to unite with a Boston company in securing direct telegraphic connection between Boston and Halifax.

The Washington correspondent of the Journal of Commerce says:—"The Wandsworth (sloaber) case was decided adversely to us, as an experiment, to test the constitutionality of the United States laws against the slave trade.—Mr. Lamar, of Georgia, gave notice to Secretary Cobb that the case would be made."

The Boston people are preparing to harvest their crop. The ice a new about seventeen inches thick.

When you see a man on a corner, on a moonlight night, trying to determine his destination that is so improper to follow a gentleman, you may see him down on a spree for a whiskey shop.

It is considered that the woman who does not remarkable story at Paris, Illinois, about an outrage on her person, and the murder of her newly born child, did so under a strange hallucination, nothing of the kind having really occurred. And so we suppose.

CASE OF BIBLE LOVERS.—The application of a negro to the Patent Office has recently led to some controversy. The Tribune remarks:

"A slave that can't read is negligent. A slave that can read is delightful. A slave that can gather into barns is a treasure. A slave that will not run away is indeed a possession. A slave that will stand anything, from the east and the pedlar up to the rendition of his wife and children, is an Abrahamic model! Here one would suppose the patient fruits of slavish virtues sought and, unless we add to it that delusion (virtue of fecundity, upon which a creamy will not permit us to dilate. But what will our readers say to a slave figuring in the light of an Inventor? Of an inventor of "a machine" so useful that it stimulated to be protected! And what will our readers think of the bothersome, calculating, ill-suggestions and general topsy-turviness of the Patent Office, when a Chattel with a black skin walked into the closets sacred to invention, and claimed to have shown a little intellectual power, and to be entitled to remuneration therefor? Claimed—poor Chattel that he was—to have invented something which human beings might find profitable and convenient. Horrible was the dignified clearness of the Patent Office at this application. Here was a thing—in the light of the Constitution nothing but a thing—claiming the honors and emoluments of an inventor!—What should a thing be doing there? A thing was two legs, and a stomach, and a head, and two hands, absolutely pretending to have invented something! No plow ever applied.—No oats ever sowed. No horse ever spoiled. Therefore, when this two legged thing came up there was a row in the Office, and the magistrates ordered her or him or it to go about his, her, or its business, and pointedly decided to issue any Letters Patent whatever, thereby establishing it as a fixed fact that no "nigger" could invent anything. In this way was the negro of Mr Oscar J E Stewart, who had sublimated upon "a useful agricultural machine," treated. Oscar J E Stewart could not stand this. Oscar J E Stewart considered that he had a right, not merely to the brains, but to whatever came out of the brains of his private and personal nigger. So Oscar J E Stewart petitioned the Senate that, if the Patent Office would not, could not, or should not, issue a patent to his ingenious "nigger," it might be compelled to issue the patent to him. The petition was received, and the report says that it was favorably referred. We have tried pretty hard to make out what an appropriate reference would be. Was it to the Committee on Agriculture? Or to the Committee on Claims? Or to the Committee on Ways and Means? We shall watch that case for Mr Oscar J E Stewart, and he shall have the benefit of our assistance. He shall have the hard cash for his "nigger's" brain work as well as for his "nigger's" handsomeness, and much good may it do him.

SCENE IN A POLICE OFFICE.—The prisoner, whose name was Barney Swivel, alias "Stove Pipe Pete," was placed at the bar, and questioned by the Judge:

Judge—Bring the prisoner into court.

Pete—Here I am, bound to chaos. A the spirits of turpentine said, when he was in a fire.

We will take a little fire out of you. How do you live?

I ain't particular, as the oyster said, when they asked him if he'd be roasted or fried.

We don't want to hear what the oyster said, or the spirits of turpentine either. What do you follow?

Anything that comes in my way, as the locomotive said when he ran over a little nigger.

Don't care anything about the locomotive. What is your business?

That's various, as the cat said when she stole the chimney off the table.

If I hear any more absurd comparisons, I will give you twelve months.

I'm done, as the b ckstick said to the cook.

Now, sir, your punishment shall depend on the shortness and correctness of your answers. I suppose you live by going about the docks?

No, sir, I can't go around docks without a boat, and I ain't got one.

Answer me, sir. How do you get your bread?

Sometimes at the baker's, and sometimes I eat oysters.

No more of your stupid nonsense. How do you support yourself?

Sometimes on my legs, and sometimes on a chair. (chair.)

How do you keep yourself alive?

By breathing air.

I order you to answer this question correctly. How do you do?

Pretty well, I thank you, Judge. How do you do?

His honor sent him up—in a huff.

The Yarmouth Register says it is estimated that $30,000 worth of mackerel have been taken by fishers of note, in the waters of the lower part of that county, during the present fall and winter. This is doing well.

A singular, but accurate, way of estimating the price of field slaves may be found in the price of cotton. For every cent a pound for cotton a field hand will bring one hundred dollars; for instance, 8 cents per pound for cotton is $8 to 12 cents, and the price of a negro man is from a thousand to twelve hundred dollars.

THE NATIONAL DEBTOR.—If Mr Buchanan means anything by his message, he must contemplate raising the requisite funds to carry out his recommendations. Now let us see what a reasonable estimate of the budget would be according to his programme:

Official statement of Sec'y Cobb,	$13 000 000
Purchasing of Cuba,	130 000,000
Greasing the wheels at Madrid,	2,000,000
Exped. to Nicaragua (approximate)	1 500,000
Exped. to Sonora and Chihuahua,	5,000 000
Ten sloops of war $150,000 apiece,	1,500 000
Fortifications at New York,	5,000 000
Increasing 1000 camels at $500 each	500,000
New land offices in Utah, building and salaries,	250 000
Post Office deficiency bill,	6,000,000
Secret service fund—spy system and corrupting Congress,	5 000,000
Total,	$303,750,000

This is what the National Democrat organs call "the coming year of economical administration."—*St. Louis Democrat.*

The San Francisco Chronicle estimates the cost of the Fraser River gold fever to citizens of California, at $12,500 000, against returns of about $100,000 in gold dust, "saying nothing about the lives lost, hopes wrecked, and energies paralyzed by repeated disappointments."

EXPLOSION.—An explosion took place in the packer building of the Massachusetts Corporation, in Lowell, on Monday last, and two Irish operatives were killed. The roof and all of the two upper stories was blown out with a noise that was heard in all parts of the city. The cause of the explosion is not known.

The Methodist Society at Jacksonville, Rock Island, are building a meeting house, to be completed the first early in the spring.

LOCAL AND MAINE NEWS.

CATTLE FOR SALE.—It will be seen by reference to our special notice column, that Mr. J. A. Batchelder, who has lately leased the Codman House, Oldtown, will give a Grand Ball, on Friday evening next, Christmas Eve, to which the public are invited. Wenge's Band will furnish the music, and we understand that Mr. B. has made such arrangements as will insure a good time to those who enjoy dancing.

MEAN FIRE IN FRANKFORT.—On Wednesday last, the three story new brick store, owned by Capt. P. Pendleton, was damaged by fire to the amount of about $100. Insured in the Maine Company, at Augusta.

On Monday night, the wheelright's shop, owned and occupied by Chandler Merrill, was destroyed by fire. Its value about $500. Supposed to be insured.

This makes five fires in Frankfort, (including the "Ocean House,"—not a great establishment, however,) within a fortnight.

FIRE AT ROCKLAND.—We learn that the house of S. C. Fessenden, Esq., of Rockland, (which has recently been enlarged and repaired at an expense of some $3500) took fire on Saturday, but how much it was damaged our informant could not say—as he left while the fire was still burning.

HAIR JEWELRY.—It will be seen by advertisement that McCharles Sweet, at his shop on Hammond S reet, is prepared to manufacture Hair Jewelry to order, in the best style. We have examined some sets made by him, for a lady in Belfast, which were as elegant as anything we have ever seen in that line.

"VILLAINOUS OUTRAGE."—We learn from Mr. Bicknell, that Monday evening, Mr Constantine and family, on their way from the Provinces, were met by a gang of ruffians, when about ten miles from the city, on the Ellsworth road, and were robbed and shamefully abused. The scoundrels knocked down Mr. Constantine and took away from him the key of his trunks, and then threw him with into the snow, kicked and beat her, and brutally treated the children. They took from the trunks all the money and other valuables they could find, and then tore up and destroyed their clothing. We hope the villains will be detected and brought to justice.

LATE.—Owing to a detention west of Waterville, the cars on the P & K Railroad did not arrive last evening until past 8 o'clock.

DARK RELIEF ASSOCIATION.—The following officers were chosen on Friday evening:

President, Dr Israel Putnam; *Secretary and Treasurer*, S C Jenks; *Trustees* Ward 1, Joseph O Hunt; Ward 2, Orb Donnell; Ward 3, Samuel L Allen; Ward 4, James H Nichols, Ward 5, J U Gilman, Ward 6, Hosea Hildreth; Ward 7, Oliver Moses.

NEW PATENTS.—A patent has been granted to Amos H Boyd, of Saco, for improvement in sewing machines; also to Joseph B Sanderson, of Stetson, for improvement in bee hives.

ANOTHER MURDER ON BOARD A MAINE VESSEL.—An account was recently published of the death of one of the crew of the bark Susan W Lind of Portland, from injuries received at the hands of the second mate, Mr McDonald, (also of Portland), in the harbor of Norfolk, Va.

The Argus of that city gives the following sketch of testimony in the case:

John Hayden, 1st mate, testified that he was on deck at 6 o'clock, A M. on the 6th inst, heard the 21 mate, Mr. McDonald complain about the man for not coming on the watch, and he would go forward and hunt them up—soon after the deceased went to the wheel and asked to be relieved, went to bed, eyes soon swelled up and closed.

J H Gilroy—heard 2d mate call out for man on watch; roused them up, using very profane language, saw him take the captain bar or handspike, saw it raised and the deceased fell; rose and staggered; said his head was split, 2d mate with ab oath ordered him to the wheel, deceased went, but asked to be relieved, and soon became deranged; commenced to spit blood; had been senseless since; could not come him up. Captain went ashore with the 2d mate and left him; no means were taken to get medical attendance, nor send the wounded man to the hospital.

It appears that McDonald left the vessel after he arrived in Norfolk, but was arrested at City Point. On being arrested, says the Norfolk Herald, he asked how the sick man was? and on being told that he was dead, changed color and appeared quite cr st fallen. The prisoner was arraigned, before Commissioner Francis, who ordered his committal. The mate and captain were arrested for examination as co-conspirators after the fact. The U. S. Commissioner, John T. Francis, Esq., who had the case under examination on Saturday evening, discharged the captain on $200 bail, to appear hereafter, and held the mate, John Hayden, in custody.

PHILADELPHIA, Dec. 17th 1858.

Mr. Geo W Ladd—

Dear Sir: I write you in relation to the death of Capt S. J. Lunt. He was taken sick the 21st of November, having a violent pain in his head and back, had continued to grow worse until the 23d, when he seemed better but did not go on deck. On the 26th he was able to dress himself and sit up most of the day. On the 27th he grew worse and was not able to sit up. On the 28th was again better and sat up most of the day, but did not go on deck. He rested well during the night, but on the morning of the 29th, he was again worse and seemed deranged, and had not his senses during the day, and died at 8 o clock P. M. I think the disease was the bilious fever. I kept him two days, and buried him on the 31st, at sea, in the latitude of Charleston S. C.

Yours respectfully,
L. W. BILLINGTON.

All the mills in Lewiston are now in operation, and doing a good business.

NEW ORGAN.—A new organ has lately been procured for the Episcopal Church in Calais, under the charge of Rev Mr Jewell. It was built in Boston.

AN AWFUL WHERE FIGS.—The tongue in Portland approaching door plates, and passing counterfeit hairpins, quarters, and jam open mouthed for the next train. Another small business the shakes.

NARROW ESCAPE.—Two horses backed off into the dock in Portland on Monday. One of them was stuck fast in the mud several hours before he was rescued by being hoisted on board a schooner. He was taken to the Aeroapital, and is now pronounced out of danger.

D. R. Jones, Esq., whose death we reported last week, was a very popular Land Surveyor in this County, thirty to fifty years ago; hence the well known phrase in deeds, "According to B R. Jones' plan of said town."—*Machias Union.*

PROBABLE LOSS OF A VESSEL AND CREW.—The Schooner St Stephen, McGregor, left New York on the 9th ult, for this port and no definite tidings having yet been received concerning her, it is feared that both vessel and crew are lost. The St Stephen had on board a cargo of corn, flour, pork &c, and a stock of general merchandise. It was reported some days ago that the Captain of the Israel L Snow, recently arrived at Eastport, parted with the St Stephen off Cape Ann about the 23d, and she may have gone down during the heavy gale that then occurred. There were five hands on board besides the Captain, three of whom, Gordon, Chapman and Lemay belonged here with J Coulter from Oak Bay. Capt McGregor leaves a wife at Lubec. The St Stephen is owned by C B Eaton, Esq., and there was insurance on vessel and cargo.—*St. Stephen Herald.*

A HOUSE IN CARNDLINE.—We learn that yesterday a lady who keeps a millinery and dress store on Middle street took what purported to be a $5 bill from a young woman in pay for some article, giving her back four dollars and twenty five cents in change. The bill proved on inspection to be but a one dollar bill, having the figure 5 neatly pasted over the 1. The forgeries ingenious, however, had made herself scarce before the deception was discovered.—*Portland Advertiser.*

Perry's Hungarian Balm.

Humors of the scalp are among the most vexatious of diseases of the skin, and it has promptly cured thousands of cases that have resisted all other remedies. Perry's HUNGARIAN BALM is not a mere dye, but a Vegetable Compound that acts upon the follicles of the delicate skin, and it excels every other preparation for the growth of a beautiful head of hair. Here is an evidence of its efficacy. Mr. G. H. Davis, of New York, writes: "I have used Perry's Hungarian Balm for my head, which, for my whiskers, I found it to be the best article for that purpose that I have ever used, and I am not afraid to say that I have used almost every article that is now in the market. I have been troubled with dandruff for many years, and have used many articles to remove it, but found no relief until I used Perry's Hungarian Balm. I have also used it for my whiskers, and it has given me entire satisfaction. I therefore recommend it to all those who are troubled with dandruff, and to those who wish to have a fine head of hair, as the best article now in use." Many other testimonials have been received, attesting its efficacy in restoring the hair. It is perfectly safe and cool, wholesome and delicate, by all druggists, at the new England Patent Medicine and Perfumery Store, No 1 Cornhill, Boston. Price 50c route, 50 cents, $1.00 and $2.00 per bottle.

PERRY DAVIS—SIR, The benefits I have received in the use of your invaluable remedy, the Pain Killer induce me to pen a word of praise for it. Experience has convinced me that for Diarrhœa, Indigestion Pain in the Stomach, or any other part of the system, Severe Colds, Weariness, Common Colds, Hoarseness CHOLERA Cholera Morbus Diarrhœa Dysentery, Toothache &c there is nothing better than the Pain Killer I have of a time recovered from a severe attack of the Sick Headache by using two teaspoonfuls, taken at short intervals, in a wine glass full of hot water I am confident that through the blessing of God, it saved me from the Cholera during the summer of 1849 Three long sand heat, dust, toil, change of diet and exposure to an infected atmosphere, my system was daily predisposed to dysentery attacks, accompanied with pain, for which the Pain Killer was a sovereign remedy, one teaspoonful curing the worst case in an hour, or at most, half a day I have heard many cases, the country over of dysentery being cured by nurses. Put in the teeth it would stop the toothache Gratitude and a desire for its general use, has drawn from me the unsolicited testimonial in favor D T TAYLOR. *1t*

Mothers! Mothers! Mothers!

Dr Tomlin's Preparation Mrs Winslow's Soothing Syrup for Children Teething. It has no equal on earth It gently lubricates the process of teething by softening the gums, reducing all inflammation—will stifly all pain, and is sure to regulate the bowels. Depend upon it, mothers, it will give rest to yourselves and relief and health to your infants. Perfectly safe in all cases.

This valuable preparation is the prescription of one of the most experienced and skillful female Physicians in New England, and has been used with never failing success in millions of cases.

It relieves the child from pain, and the little cherub awakes as "bright as a button." It gives a quiet stomach, and bowels, and produces natural and healthy sleep for the mother, and relief and health and refreshment to the child, operating like magic. It is the greatest medicine in the world for all children, whether it be used in the nursery, or in the arms of the nurse. No mother can rest easy after once using it. Millions of mothers say and will say it is the best medicine in the world. Twenty-five cents a bottle.

Sold by druggists throughout the United States. It is an old and well tried remedy.

PRICE ONLY 25 CENTS A BOTTLE

Be sure and ask for Mrs Winslow's Soothing Syrup and take no other kind. Be sure to call for CURTIS & PERKINS' New York, on the outside wrapper

ROSE MARY

BEAUTIFUL HAIR.

More than 1,000,000 Bottles Sold.

Spalding's Rosemary & Castor Oil.

This combines everything required to give richness, beauty and elegance to the hair It restores dandruff and falls to heads. To form the growth, prevent falling off, and restore hair to bald places, it has been used with POSITIVE SUCCESS. It is presented to the public in an open, candid manner, stating, as the result indicates, the leading ingredients viz

Rosemary and Castor Oil,

both common and well known articles The following persons CAN BE found, and are well known. We give a few extracts from their opinions about the

ROSEMARY

"MRS A. TRAUX, Esq, Rensselaer, N Y, writes—Aged 73 years of age, was bald 35 years, having used five bottles of your Rosemary, and my hair is now two feet long &c."

Rev SYLVANUS COBB, Boston, Mass.—"I had rather pay for it than have any other preparations for nothing." &c

Mrs D TAFT, Cambridge, Mass.—"Have used your Rosemary with great success in keeping my hair black, for age was unusually fine"

Mr DANIEL H CONKON, Boston Mass.—"Eight months ago I was bald—my hair now long and healthy. I know your Rosemary had forced it to grow" &c.

GIDEAN E. BODGE, Esq, Vendue, now of Cleveland Ohio,—"I gave a rapid growth, and dark glossy tresses and does not fall the bald or pillow in the least—I know of nothing so valuable for the hair"

FRANCIS ADAMS, Esq, Boston Mass—"It is the best thing for children's hair, the infants are delighted with it"

Rev C W BENNISON, Buffalo, N Y.—"I find it excellent for the hair"

Mrs. LAWRENT, Boston Mass—"It restored my hair to hard head and made gray to black color" &c

Hon L. MUNN Lowell, Mass—"I remove the dandruff and keeps the hair soft and glossy, we have never found better on good"

M HOFFMAN, Esq, (Editor of the German Weekly) Boston, Mass and his wife Rosemary—"It causes the hair to grow very quickly, gives beauty and splendor to better than Europeans knocked" &c

G H SPALDING, Esq (Trinity College) Hartford Ct.—"By using it my hair turned from a shady tan brown color—I was scarcely dry when the change came" &c

A P WOOD, Ubenhill New Haven, Ct—"I have a lady friend of very dark hair on a face who six weeks ago had a bald head and nothing but your Rosemary"

"Havana House Boston July 1857 "I had no more hair on my head than an infant, seven months ago it is now thick, healthy, growing rapidly and is a fine dark color I can positively say that J RUSSELL SPALDING'S Rosemary has produced the change"

California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Through Tickets, including transit of the Isthmus, can be had at the office of the R R

CAUTION TO THE PUBLIC.

On account of the numerous frauds and impositions travelers thus bound to California are cautioned to buy Tickets at the only authorized Agencies of the United States Mail Line as below.

By order of the Post-master General the United States Mail Steamers will hereafter be despatched from New York to Aspinwall, on the 5th and 20th of each month.

Passengers will be landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers without any *detention* or expense. This is the only line giving entire Through tickets, guaranteeing no detention on the Isthmus.

Travel made in *four hours entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation, over rocks and shoals.

Arrangements have now been completed so that to regular U S Paris Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a sure and *short* passage with the greatest comfort and safety to health.

Tickets must be procured of the Company's Agents before they will be received by the Agents of Panama. Tickets thus secured can be obtained of the *only authorized Agents* of the U S and Pacific Mail Steamship Companies, in this city C L BARTLETT, Agent,

LINCOLN'S WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your Feet dry, and you will seldom need a Physician.

IT is not a truth that when the feet are often wet, it is one of the most active causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks, but when it is once upon the use of this preparation of this preservative, it remains soft, and naturally impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, was led to experimenting on different compositions, and found it easy to make it water proof, but at the same time extremely injurious to the leather. At length, by chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but like oil gives life to the leather, and it will

Positively wear twice as long.

I have now used it for three years and a large part of that time have worked in a wet Tannery with my boots constantly in the water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

Scientific American.

PROSPECTUS.

Volume Fourteen.

BEGINS SEPTEMBER 11, 1858.

MECHANICS, INVENTORS, MANUFACTURERS AND FARMERS.

THE Scientific American has now reached its Fourteenth year, and will enter upon a New Volume on the 11th of September. It is the only weekly publication of the kind now issued in this country and it has a very extensive circulation in all the States of the Union. It is not, as some might suppose from its title, a dry, but a popular work on both practical science, on the contrary, it so deals with the great events going on in the science, mechanical, and industrial worlds, as to please and instruct every one. If the Mechanic or Artisan wishes to know the best recipe or process, or how to make any substance employed in his business—if the Housewife wishes to get a recipe for making a good cake, &c.—if the Inventor wishes to know what is going on in the way of improvements—if the Manufacturer wishes to keep posted with the times and to improve the tone of his establishment by his business—if the Man of Leisure and Reading wishes to keep himself familiar with the progress made in the chemical laboratory, or in the construction of telegraphs, steamships, railroads, reapers, mowers, and a thousand other appliances both of peace and war—all this and much more can be found in the SCIENTIFIC AMERICAN, and will be regularly recorded. They are there presented in a reliable and interesting style, adapted to the comprehension of minds unlearned in the higher branches of science and art.

THE LUXURY AND PROFIT OF

HONEY MAKING.

Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling Torrey's Patent Bee Hive for the Counties of Penobscot, Lincoln and Waldoboro, which has been received with so much favor, and taken the first premiums wherever established, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Bees Flat-to m, and to sell rights to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey making business to be superior to every thing yet invented for the purpose. It covers all the requirements for the profitable management of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—concentrate for the removal of excrement, for the proper separation of the swarms, and generally for the best good and comfort of the workers.

The boxes used in this Hive are the largest in New England, but through it inventor has advantages for securing Patents, of ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered from elsewhere. The Testimonials below give a picture that none is MORE SUCCESSFUL AT THIS PATENT PRICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe and can prove, that at no other office of the kind are the charges for professional services so moderate. The extensive practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. There, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, rendering him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more competent and faithful, and more capable of putting their applications in a form to secure to them an early and favorable consideration at the Patent Office. EDMUND BURKE,
Late Commissioner of Patents

Mr R H. Eddy has obtained for me THIRTEEN applications, all but one of which I think he has granted, and that is now pending. Such unanimity and success of prosecution and ability in the most feasible and to secure and effectual mode to obtain a patent are unusual. I have no hesitation in saying the cases faithfully intrusted to their care, and at very reasonable charges. JOHN TAGGART.

From Sept. 17 h, 1857, to June 17th, 1858, the subscriber in course of his large practice made an issue to rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in the favor, by the Commissioner of Patents.

HARPER, Godey's, Arthur's, and Arthur for Dec. just rec'd by D. E. PATCH.

American Safety Paper Manufactoring Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against the use of Chemicals for Counterfeiting on Paper—To Prevent Erasures and Alterations Completely, Wherever, By Washing or Otherwise.

HAVING purchased the Patent, for the sole chemical right to manufacture that Paper, the Chemical Paper Company, as above, is now presented in England by Thomas Oliver, Esquire, and chemist and engineer to the British admiralty, is hardly necessary to say that the Paper is fully recommended by Mr. Hunt, Assayer to the Mint, and Mr. Lyman of the New York Quarting Department. Meade Brothers, extensive and skilful photographers, 289 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—35 cts per lb
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$20 for 1000 sheets
Promissory Notes—40 cts per lb.
Sight and Time Drafts—$35 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb
Bank and State Stocks—40 cts per lb.
Bonds and Mortgages—40 cts per lb.
Wills and Deeds—40 cts. per lb.

For wrapping 60lbs and upwards of the articles it is excellent, as it prevents moths. 40 cts a lb

For Indentures and Agreements, 40 cts a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Numbers alimates it is excellent, and much superior to any other, as the moistness of the climate does not destroy it,—the properties insertes in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N J., of about 500 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A NICHOLAS, President of the Company, No. 70 Wall street, New York

IS ONE OF THE BEST PURGATIVE AND Liver Medicines now before the public

These Gums remove all disorder that naturally exists in the system, only being a liberal dose of the Liver Invigorator, which will act upon the stomach causing food to digest well, purifying the blood, get up a free and just evacuation of the bowels, causing a radical cure.

Bilious attacks are cured and will not be followed, if a dose is taken on the first symptoms.

Costive or sluggish habits are sufficient to cause the most severe and protracted headache, if the Liver Invigorator is used according to directions.

One dose often relieves the most severe Chronic Diarrhœa, but in most cases it requires a few doses to effect a cure.

Only one dose taken at night loosens the bowels, removes, and cures the most severe

One dose taken after each meal will cure Dyspepsia.

One dose of from two to four teaspoonfuls will always relieve Sick Headache.

Only one dose immediately relieves Colic and Cholic.

All who use it are getting their unanimous testimony in its favor.

Mix it after you smell with the Invigorator, and swallow both together
